FREE HEALTHCARE POLICY

Healthcare access should never be determined by an individual's ability to pay.

The Maldon Foundation is committed to eliminating financial barriers to healthcare and improving access to medical services for underserved communities.

Through partnerships with qualified healthcare providers, the Foundation facilitates access to charitable healthcare services, with particular emphasis on primary care, preventive healthcare and chronic disease management.

FREE SERVICES

The Maldon Foundation provides its healthcare referral, patient navigation and care coordination services at no cost to individuals, regardless of income, ability to pay or health insurance status.

Covered medical services arranged through the Foundation's free healthcare program are provided without charge to participating patients.

Service	Patient Cost
Healthcare referrals	**$0**
Patient navigation	**$0**
Healthcare coordination	**$0**
Covered initial medical consultations	**$0**
Covered follow-up appointments	**$0**
Covered preventive healthcare services	**$0**
Covered chronic disease management	**$0**
Enrollment and administrative fees	**$0**

ACCESS TO SERVICES

Services are available without discrimination. Individuals who are uninsured, underinsured or experiencing financial hardship are encouraged to contact the Foundation for assistance.

The Foundation also assists individuals in identifying resources for prescription medications, laboratory testing and additional healthcare services that may not be covered by the program.

To request healthcare assistance or obtain additional information, please contact The Maldon Foundation.

THE MALDON FOUNDATION

Removing barriers. Expanding access. Improving lives.

This Policy Is Effective as of August 13, 2025

__DISCLAIMER__: The Maldon Foundation is not a medical practice and does not directly provide medical treatment. Rather, the Foundation coordinates and facilitates access to healthcare services delivered by its qualified, licensed healthcare partners. All medical services and clinical decisions remain the responsibility of the treating healthcare provider.
